

THANARAT CHUEPHASUK

Bangkok, Thailand | +66 95 934 4939 | thanarat.chue@gmail.com | <https://thanarat-int.github.io/>

TECHNICAL SKILLS

Programming Languages: Python, TypeScript, JavaScript, C#, C++, PHP

AI Engineering: RAG, Prompt Engineering, Context Engineering, Agentic AI, Vector Search, Embeddings, MCP, LangChain, LangGraph, Generative AI, OpenCV, OCR (Tesseract), Ollama, vLLM

Web Development: FastAPI, Node.js, Express.js, REST API, WebSocket, Pydantic, JWT, OpenAPI, React, Next.js, HTML, CSS

Databases: PostgreSQL, SQL Server, MongoDB, Firebase, Supabase, ChromaDB, Qdrant, Pinecone, Dataverse, pgvector

Infrastructure and DevOps: Linux Server, Windows Server, Raspberry Pi, Docker, Ansible, Git, GitHub Actions, Jenkins, CI/CD Pipelines, Grafana, Zabbix, GCP, Fortinet, Network TCP/IP, DNS, VPN, VLAN

Tools and Automation: Robot Framework, Playwright, Selenium, n8n, Power Automate, Apache Airflow, Power BI, Power Apps, Looker Studio, AppSheet, Google Apps Script

PROJECTS

RFQ Wizard AI-Powered Cost Estimation Platform

2026

Tech Stack: Python, FastAPI, Next.js, React, TypeScript, PostgreSQL (pgvector), Three.js, Claude, Docker

- Built end-to-end AI cost estimation platform with autonomous AI Agent (Claude Opus 4.6 + Sonnet 4.5) integrated with legacy ERP, AI document parser for RFQ files, 3D packaging visualization, ~25 REST endpoints, 20+ React components, JWT auth, and Dockerized deployment.

Enterprise RAG Chatbot AI Knowledge Assistant

2026

Tech Stack: Python, FastAPI, React, Qdrant, ChromaDB Claude / GPT / Gemini / Ollama, Apache Airflow, Docker

- Built multi-user RAG chatbot for internal document search (PDF, Word, Excel, PowerPoint) with multilingual embeddings, OCR ingestion via Airflow, multi-LLM streaming (Gemini, Claude, OpenAI, Ollama), and an intelligent voice mode for passive meeting transcription.

Sales Tracking & Forecasting Dashboard Visualization

2025

Tech Stack: Power Apps, Microsoft Dataverse, Power BI, Power Automate, Python (ARIMA), Pandas

- Developed a cross-platform sales tracking app (Power Apps + Dataverse) with embedded Power BI dashboards, automated data pipeline, Python ARIMA 90-day forecasting, and weekly executive reports via Power Automate to Email and Microsoft Teams.

WORK EXPERIENCE

AI Context Engineer

2026

Sirivatana Interprint Public Company Limited

- Designed and developed AI applications and automation solutions for the printing and packaging industry.
- Analyzed legacy workflows, implemented AI tools, and managed AI model deployments while optimizing for performance and cost efficiency.

IT Infrastructure Section Head

2021 – 2026

C.J. Express Group Co., Ltd.

- Led a team responsible for new branch IT rollout owning the full lifecycle from planning, hardware procurement, on-site setup, to software and network configuration, ensuring each branch opened on schedule.
- Automated Linux and POS provisioning using AWX (Ansible) and built scripts to standardize repeatable setup tasks across branches.
- Configured branch network infrastructure including Fortinet firewalls, Cisco switches, and wireless access points.

IT Officer

2020 – 2021

Lazada Co., Ltd.

- Maintained warehouse IT systems, supported basic server setup, provided remote troubleshooting for end users, and managed backup operations.

EDUCATION & LANGUAGES

Bachelor's Degree in Information Technology — Sripatum University, Bangkok (2025) — GPA: 3.52

Diploma in Business Computer — Eastern College of Technology, Bangkok (2019) — GPA: 2.89

Languages: Thai (Native) | English (Working Proficiency — technical documentation)
